About Me

I'm a 2nd year student at Zhytomyr Polytechnic, majoring in Software Engineering. I have a strong interest in Full Stack web development. I started with HTML and CSS, quickly moved to JavaScript, and fell in love with React. In parallel, I developed Backend skills working with PHP, Node.js, as well as C and C#. I enjoy solving complex problems on both Frontend and Backend.

Throughout my studies, I have worked on various projects ranging from simple landing pages to full-stack web applications with server-side functionality. I am always eager to learn new technologies and improve my skills across different areas of software development.
